

BRAILLE-MITRA PRO

Refreshable Braille Display for Indian Languages and English

- Braille-Mitra PRO is a Refreshable Braille Display for visually impaired people for reading books in all major Indian Languages and English. **Braille-Mitra PRO** supports six-dot Braille script.
- **Braille-Mitra PRO** is ideally suited for reading Indian Language books which are stored in the device memory. **No need to connect to a computer all the time!**
The display has user friendly navigation controls which enable the reader to read multi-page documents/books easily.

- **Braille-Mitra PRO** has USB host interface to which a pen-drive of up to 16GB capacity can be plugged-in to transfer books to the device. The device can hold maximum of **4000 books** at a time.
- **Braille-Mitra PRO** comes with a **Library Software** where users can manage their books by language, size etc. This software helps to create a perfect library for your reading pleasure.

- **Braille-Mitra PRO** has six-dot characters which are controlled by highest quality imported piezo-electric crystals to give very low response time for the dots. The dots have comfortable and uniform feel for long reading times. Readers can achieve up to **60 words per minute** with fast switching technology used in the display.
- **Braille-Mitra PRO** supports all major Indian Languages; like Assamese, Bengali, Gujarati, Hindi, Kannada, Tamil, Telugu, Malayalam, Marathi, Oriya, Punjabi and English.

- **Braille-Mitra PRO** is available in 32 Braille characters per line. This makes Braille-Mitra PRO very mobile and an ideal companion for book reading anywhere you go.
- A book mark facility is also provided.
