WARRANTY, SUPPORT AND ORDERING

All embossers come with an automatic one-year warranty. Enabling Technologies have appointed Modular InfoTech Pvt. Ltd. Pune, India as their authorised distributor and servicing agency for India. We offer technical support by telephone, fax, or e-mail. Single Sheet Tractors on the above embossers enable you to feed one sheet of non-tractor paper or plastic at a time manually through the embosser and allow 22 lines per page maximum on 11-inch paper. Please order all extra features you feel you might need at the time your embosser is manufactured, as Single Sheet Tractors and ET Speaks are prohibitively difficult and expensive to retrofit on existing embossers. A full literature packet (with technical specifications) is available in print or on disk. For literature, ordering information or further assistance, please contact us at the address below.
